### **Executive Summary**

In conclusion, our website aims to provide convenience for the residents and administrator of the Ang Mo Kio community. The content of our website includes Community; Booking, Course and Event, Finance, Web Chat and Pharmacy chatbot and shopping. Community features provides a platform for both the residents and administrator to interact without the hassle of real life interactions. Finance features provides accessibility for the residents as they get to record and track their finance effortlessly. The Web Chat counters the problem where residents have to make frequent trip down to the the hospital as our website provides a communication platform between the doctor and patient.

Our team created a friendly community website that allows the residents to obtain the community information easily online. This idea came about when we realised that notifications from the notice boards are often neglected or not read by the residents in real life. Therefore, we decided to come up with a community website that allows both the administrator and residents to interact and allows the administrator to reach for the residents effortlessly.

## Project Plan

### Project Team Organization

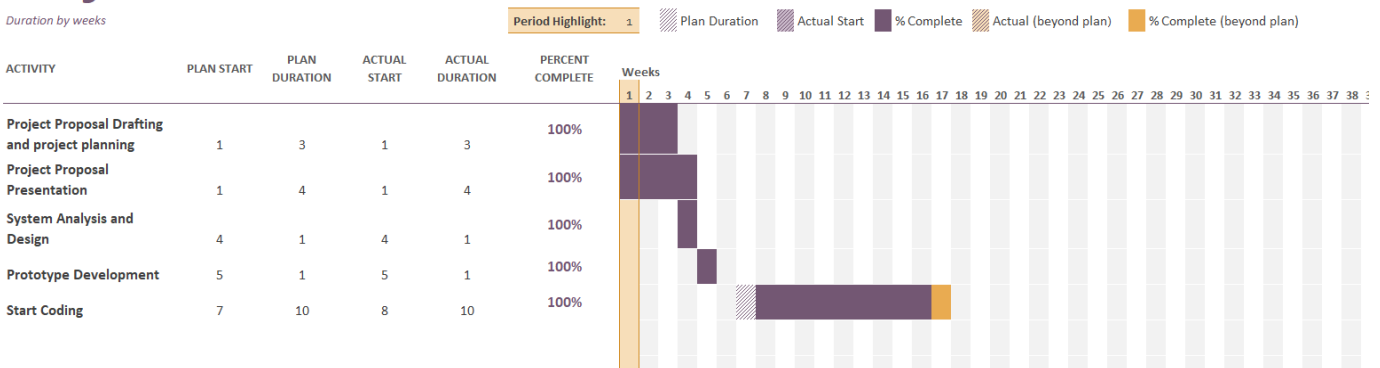

Leader - Lim Kei Yiang

Member - Pei Zhen , Mavis Yeo, Louis.

### Gantt Chart

#### Project Planner

Duration by weeks

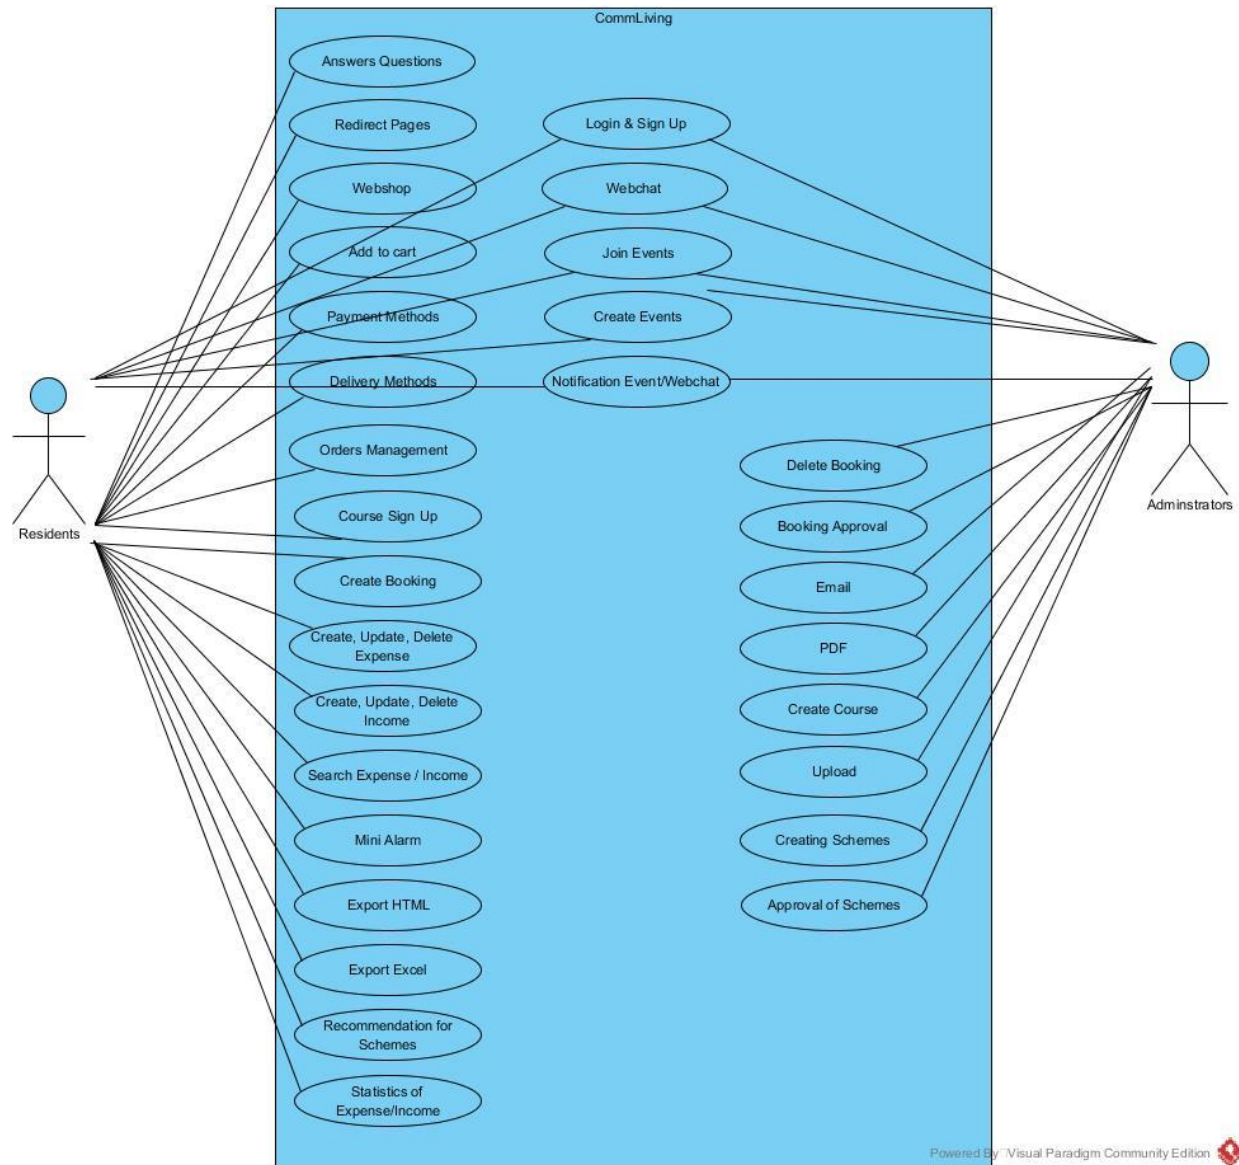

### Software tools used for development

Visual Studio 2017, Visual Paradigm, Git Hub, Excel for Gantt Chart.

## Requirement Analysis and System Design

### Use Case Diagram

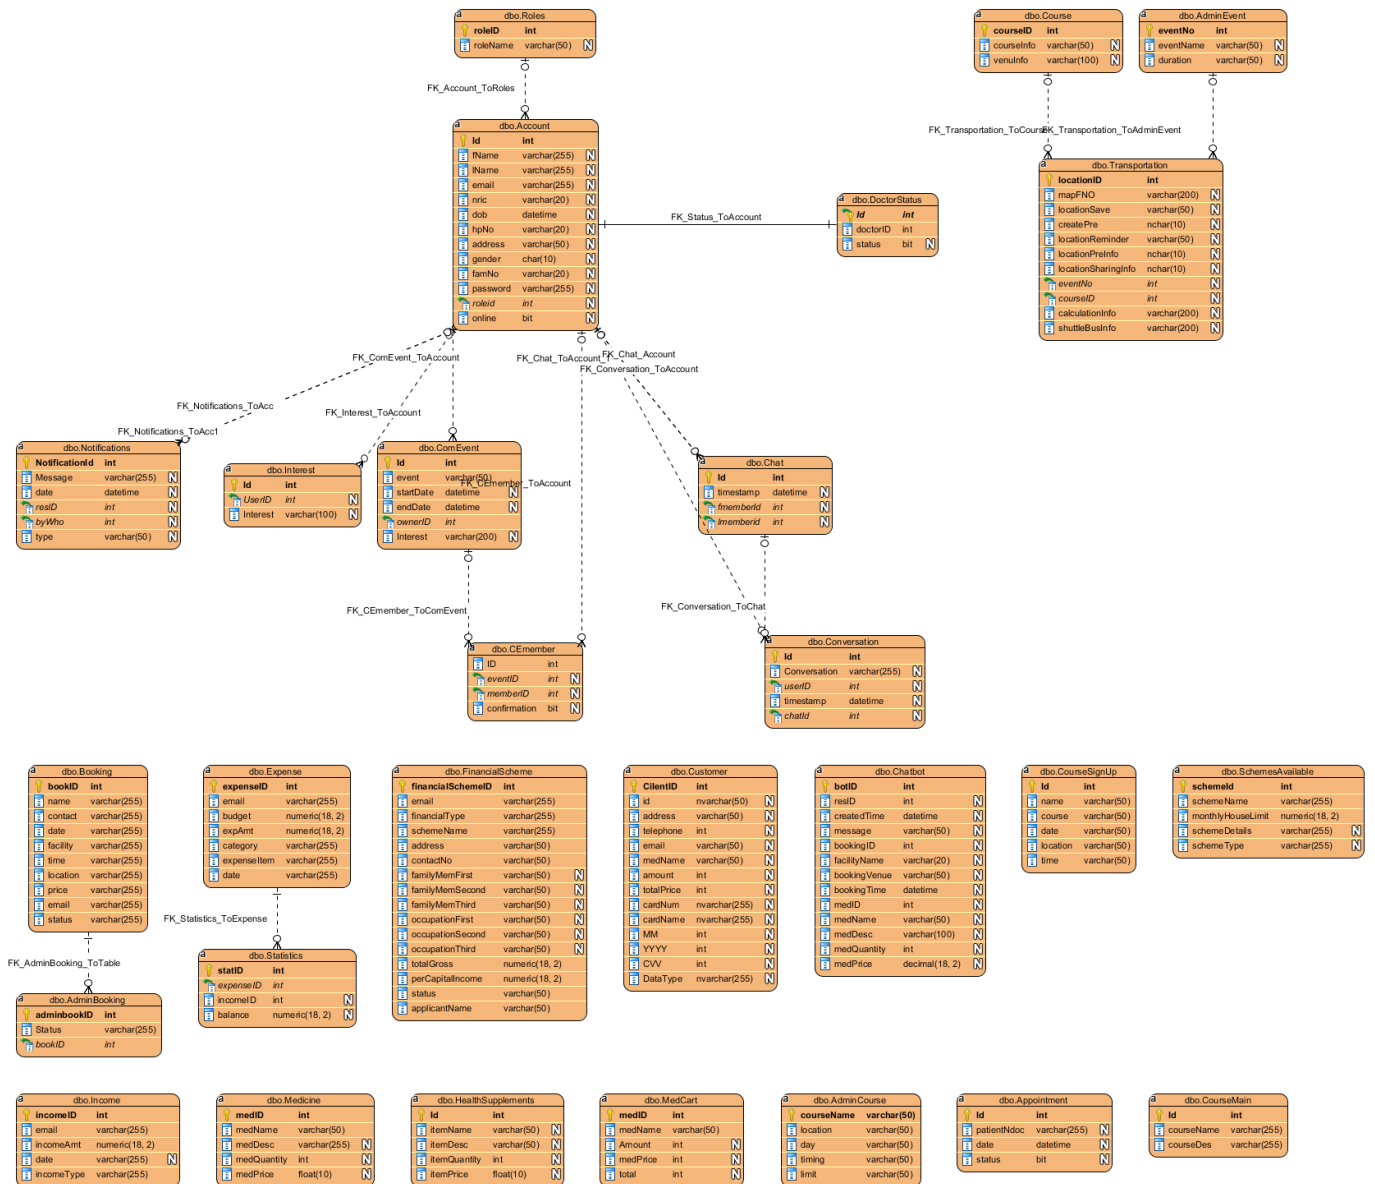

## **Class Diagram**

- Selecting a particular cell for approval.

- Clicking on the “Select” leads to the email page where user gets to send email to the particular selected email recipient.

## Approved button

- Display relevant text when the user clicks on “Approve” button and update the status from “Pending” to “Approved”.

## Declined button

The screenshot shows a web browser window with the URL `localhost:55640/web/AdminEvent/Email.aspx`. The page has a blue header with a "Logo" on the left and navigation links "Home", "Clinic", "Finance", and "Community" on the right. The main content area is titled "Booking Approval" and contains a form for email approval. The form fields are: "To:" with the value `eadptfw@gmail.com`, "From:" with the value `pzpzeadp@gmail.com`, and "Subject:" with the value "Booking Status". Below these fields are two buttons: "Accept" (green) and "Decline" (red). The "Body:" section contains a text area with the message: "We are sorry to inform you that your booking has been declined. Please contact us for any enquiry." At the bottom of the form are "Send" and "Back" buttons. A chat window is visible at the bottom of the browser window.

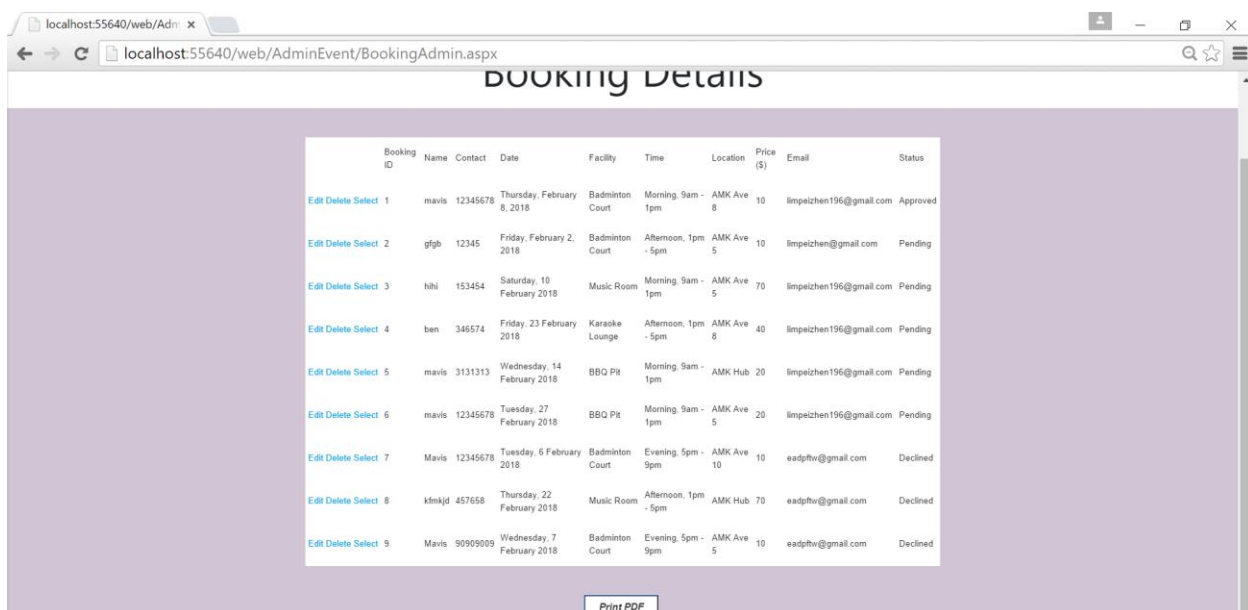

- Display relevant text when the user clicks on “Declined” button and update the status from “Pending” to “Declined”.

## Sent email to resident

This screenshot shows the same "Booking Approval" web application interface as the previous one, but with a confirmation message at the bottom of the form: "Mail was sent successfully!". The "Accept" and "Decline" buttons are still visible, and the "Send" and "Back" buttons are also present. The chat window at the bottom of the browser window is also visible.

- An Email will be sent to the recipient email to notify them of the Booking Status when the user clicks on the button “Send”.

## After declined

localhost:55640/web/AdminEvent/BookingAdmin.aspx

Chat

The screenshot shows a web browser window with the URL `localhost:55640/web/AdminEvent/CourseMain.aspx`. The page contains a form for creating a course. The form has three main sections: "Course name:" with a text input field containing "Dance"; "Course description:" with a text input field containing "Attire: sneaker"; and "Upload a picture:" with a "Choose File" button and a file name "Dance.jpg". Below the file name are "Upload" and "Submit" buttons. Below the form is a section titled "Courses" which displays a list of courses. The list has two columns: "Course Name" and "Course Des". The first row shows "Baking" with the description "Attire: comfortable clothes" and a small image of people baking. The second row shows "Dance" with the description "Attire: sneaker" and a small image of people dancing. At the bottom of the page, there is a footer with a "Chat" button, a copyright notice "© 2018 Copyright, Enterprise Application Development & Projects", and a "More Links" button.

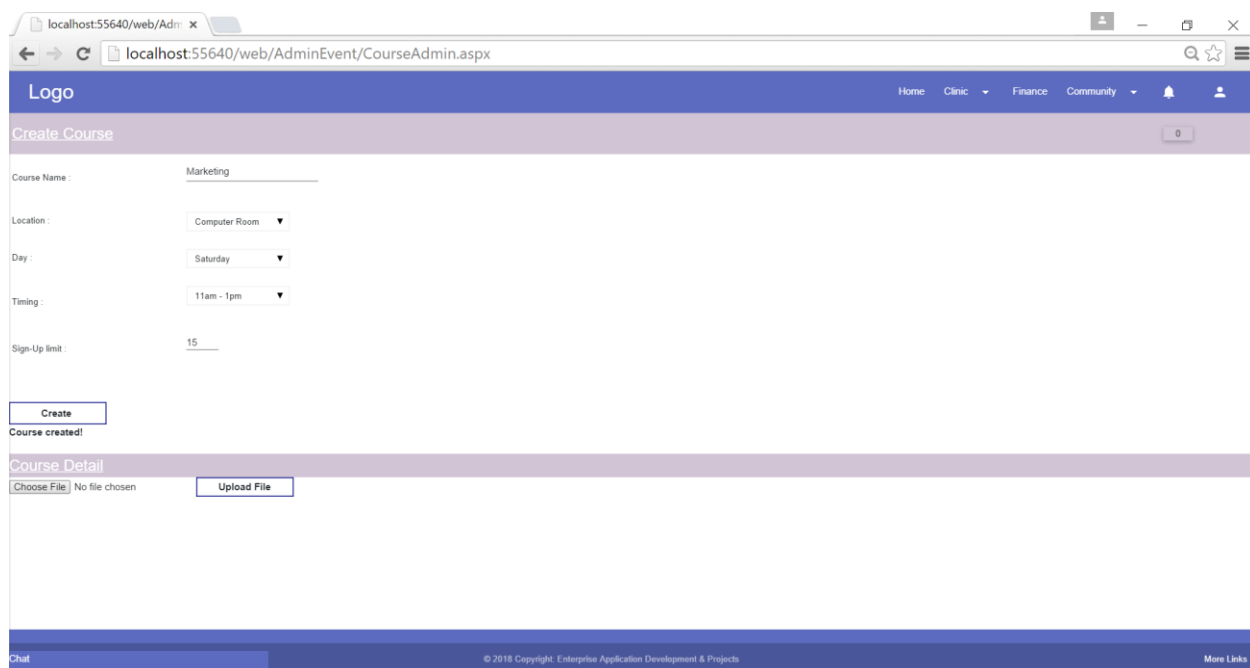

- Administrator will create and upload picture of the course created in the course main page for the residents to view.
- “Upload” button allows the user to upload pictures.
- “Submit” button allows the user to create the course name and course description in the main page.

## Course Main Page - Residents

- Residents only get to view the created and uploaded part as they will not be able to create and upload anything.

## Creating courses - Administrator

- “Create” button allows administrator to create course for the residents to join.
- “Upload file” button allows the user to upload documents of the course details and save inside a file.

## Validation of maximum document size upload

The screenshot shows a web browser window with the URL `localhost:55640/web/AdminEvent/CourseAdmin.aspx`. The page has a blue header with a 'Logo' and navigation links: Home, Clinic, Finance, Community. Below the header is a 'Create Course' section with a purple bar and a '0' indicator. The form contains the following fields:

- Course Name: Marketing
- Location: Computer Room
- Day: Saturday
- Timing: 11am - 1pm
- Sign-Up limit: 15

A 'Create' button is present, and a message 'Course created!' is displayed. Below this is a 'Course Detail' section with a 'Choose File' button (labeled 'No file chosen') and an 'Upload File' button. A green message 'File Uploaded' is shown. The footer includes a 'Chat' button, copyright text '© 2018 Copyright Enterprise Application Development & Projects', and a 'More Links' button.

This screenshot shows the same 'Course Admin' interface, but with an error message. The 'Create Course' section and form fields are identical to the first screenshot. However, the 'Course Detail' section now displays a red error message: 'Maximum file size (100KB) exceeded'. The 'Choose File' button remains labeled 'No file chosen'. The rest of the page, including the header and footer, is the same.

## Course Sign Up - Residents

localhost:55640/web/AdminEvent/SignUpCourse.aspx

### Course Sign Up

Name:

Date/Time:

Location:

Successfully signed up!

Chat

- Residents will sign up for the courses created by the administrator.
- “Submit” button saves the sign up details of the resident.

## Financial Tracker - Residents

The screenshot shows the 'Financial Tracker' web application. At the top, there is a navigation bar with 'Logo', 'Home', 'Close', 'Finance', and 'Community'. The main heading is 'Financial Tracker.' Below this, the interface is divided into two main sections: 'Expense' and 'Income'.

**Expense Section:**

- Budget:** A text input field.
- Date:** A text input field.
- Table:** A calendar-style table for February 2018. The table has columns for Sun, Mon, Tue, Wed, Thu, Fri, and Sat. The dates 1 through 28 are listed in the rows.
- Amount:** A text input field.
- Category:** A dropdown menu with a placeholder '- Select -'.
- Spent On:** A text input field.
- Submit:** A blue button with a white plus sign.

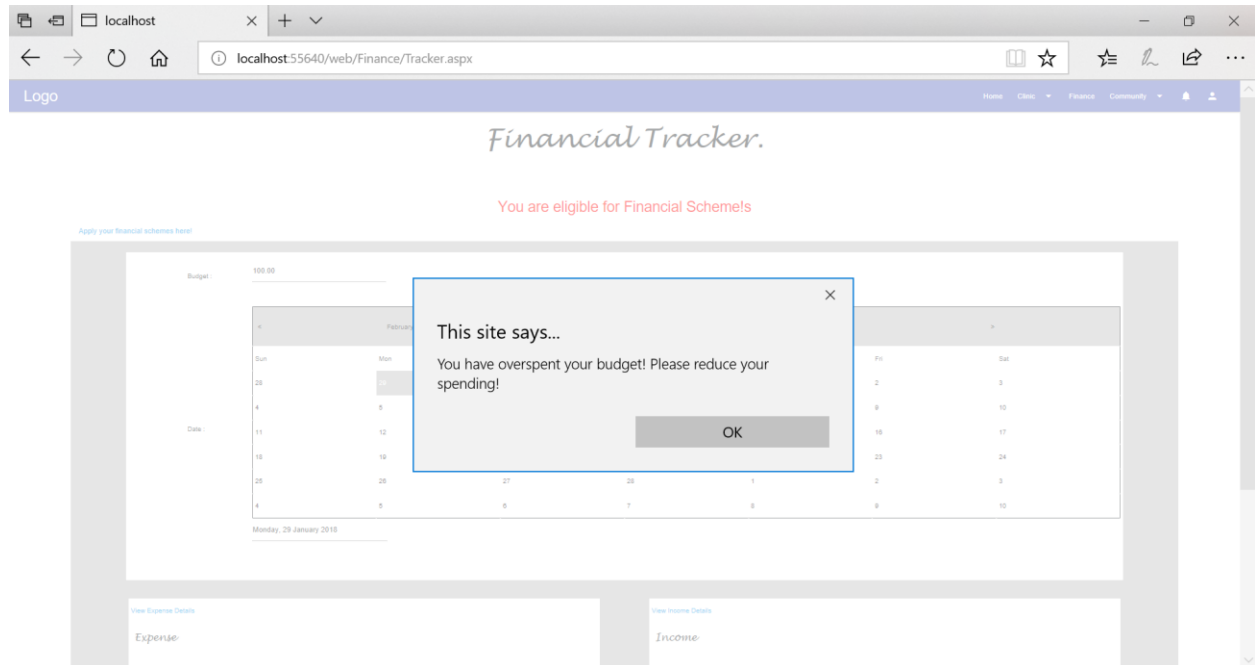

**Income Section:**

- Amount:** A text input field.
- Category:** A dropdown menu with a placeholder '- Select -'.
- Other Income (Please Specify):** A text input field.
- Submit:** A blue button with a white plus sign.

- First page to financial tracker
- Users are required to input in their budget that they want to achieve , date, expense amount, expense category, expense item, income amount and income type.
- Users can click on the link provided for them to view their expenses and income details created.

## Overspending of budget

- A pop up will appear if expense is greater than budget inputted to notify users to cut down on their expendages

## Recommendation for financial scheme

[You are eligible for Financial Schemes!](#)

[Apply your financial schemes here!](#)

- A panel with a link will appear when total income earned subtract total expense earned is lesser than the max amount ,showing a optional application for financial schemes

## Creation of financial schemes - Residents

The screenshot shows a web browser window with the URL `localhost:55640/web/Finance/FinancialSchemes.aspx`. The page title is "Financial Schemes." and it includes a logo on the left and navigation links (Home, Class, Finance, Community) on the right. A message at the top states: "\* Please fill in all the necessary details. This will take about 10 mins." The form is divided into two main sections. Section 1, "Particulars Of Applicant", contains dropdown menus for "Financial Type" and "Financial Scheme Name", followed by text input fields for "Applicant's Name", "Address", and "Contact Number". Section 2, "Information On Household Members", is a table with four columns: "Family Members (in MRIC)", "Relationship With Applicant", "Occupation", and "Gross Monthly Income (\$)". It has two rows for data entry, labeled 1 and 2.

- The dropdownlist of the scheme type and name are bind to the table column of scheme type and name respectively.
- Validation is set if users do not select scheme type ,scheme name, enter their name , address ,contact no etc.

## Creation of schemes - Admin

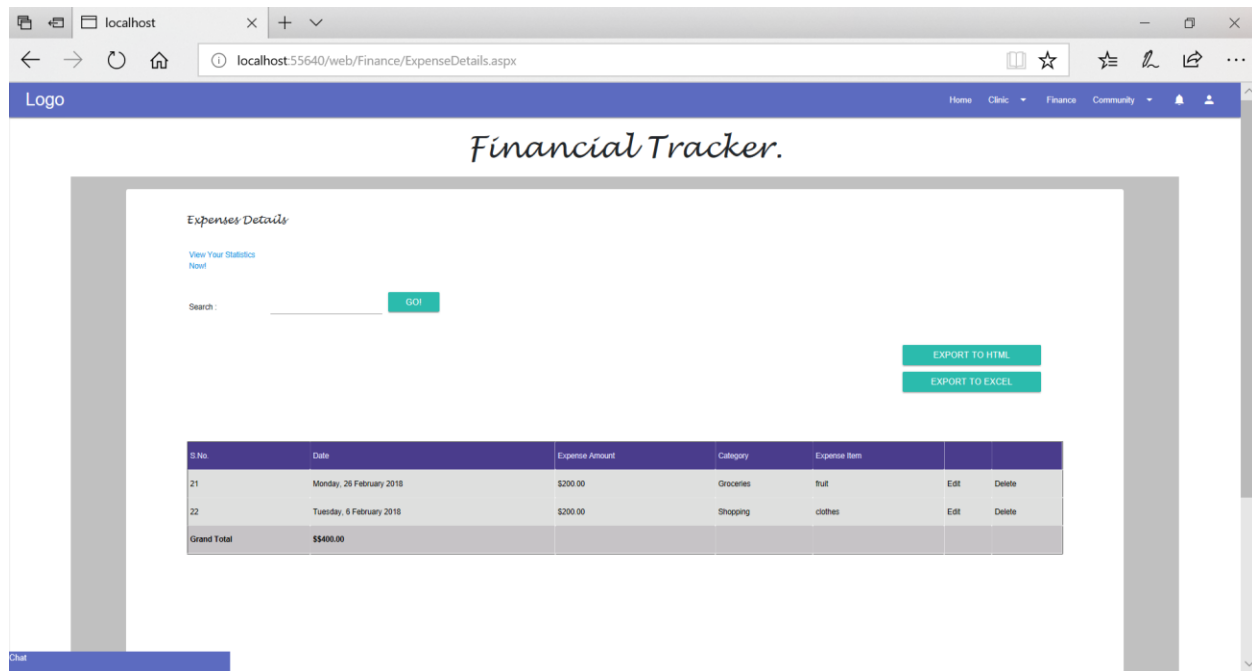

- Admin must create records of financial schemes available for users and the maximum number (limit) for monthly gross income in order for the financial scheme to be functionable.
- After applicant have created an applicant form and submitted it, admin would have to approval them

## Approval of schemes - Admin

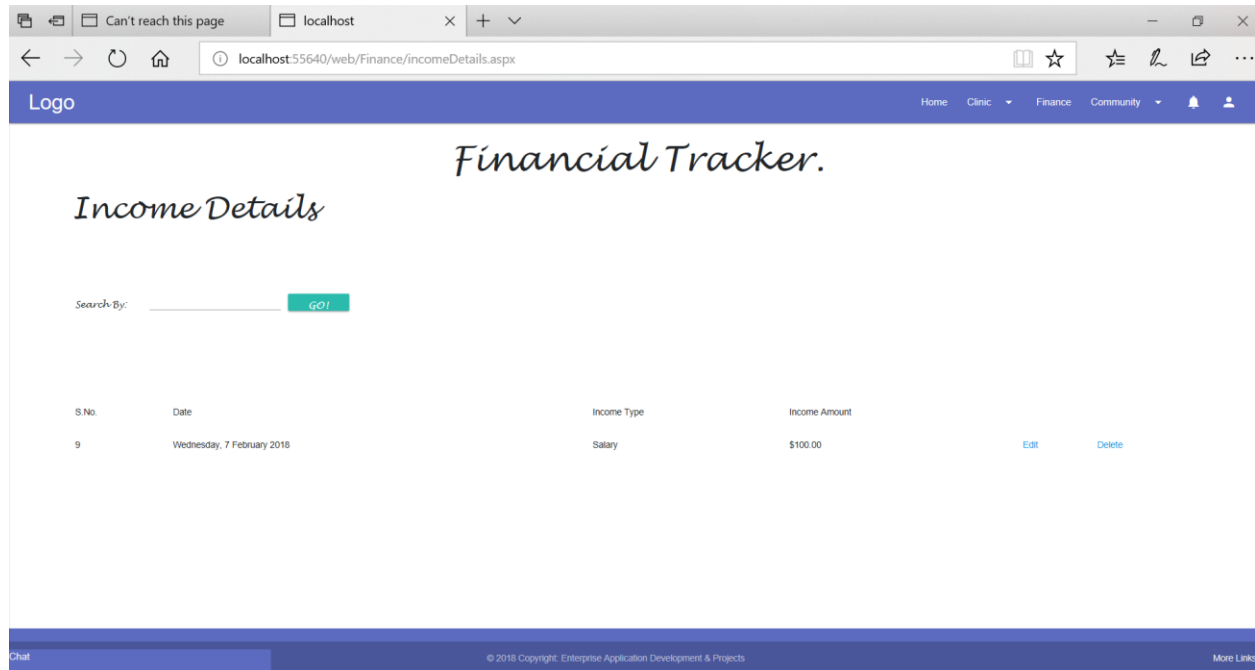

No	Applicant Name	Scheme Applied	Total Gross Income	The Credit Income	Status
1	John	Business	10000	5000	Pending

- The admin would have to check the checkbox and click on the approve button for the status the turn to “Approved” else it will be “Pending”

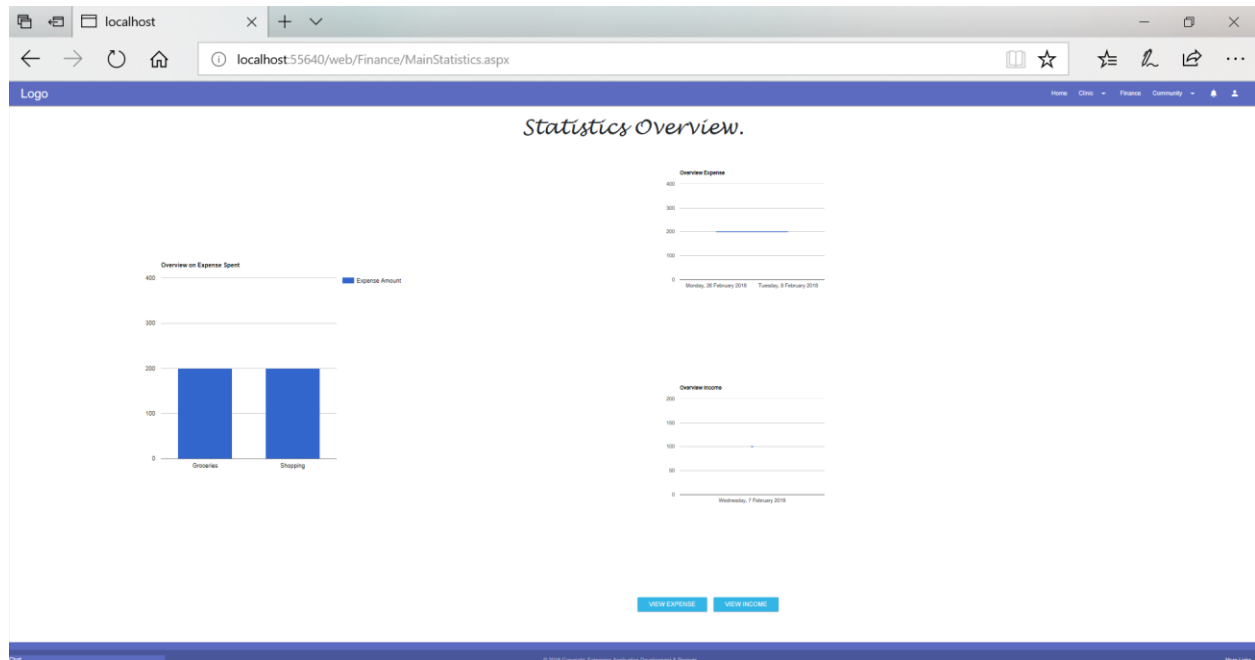

## Expense Details - Residents

- Expense details page.
- Users are able to view details of all expenses created ,grand total incurred, filter and search for through records.
- Users are able to update and delete their record made.
- Export their gridview to html or excel.
- Link to main page of statistics.

- Income Details page.

### **Problems Encountered**

#### **1. Overlapping of Css**

- The overlapping of css implemented in the master page interferes with the layout of individual web forms causing some form of alignment issues and blockage to individual web page. Therefore, manual coding must be done hence taking up a lot of our time.

#### **2. Integration of codes in two different computer**

- Before integration, the codes were able to work perfectly in one of the member's computer but the exact same code cause errors that are difficult to detect in another member's computer.

#### **3. Version of Visual Studio**

- The older version of visual studio does not have some functionality that is required hence, it is different to work on two different computer.

#### **4. Time management**

- The time period for coding is very limited, therefore some function cannot be implemented as intended.

#### **5. Teamwork**

- Lack of members turning up for project meetings which result in lack of communication, this causes the project to be delayed.

### **Future Enhancements**

#### **1. Video conference**

Aims to provide convenience for the elderly as they do not have to make an actual trip down to the hospital to get consultations from the doctors frequently. With this feature, it allows verbal communication between the patient and the doctor similar to real life interactions.

#### **2. Finding of Job**

Aims to provide suitable job opportunities for the residents who has troubles looking for a job on their own. The website will recommend a suitable job that is available for the residents to sign up for and provide relevant courses to aid them in that certain field.

### **Conclusion**

To end off, our team aims to bring unity in the community by also providing the residents and the administrator ease in communication. With that, the both parties will have a diverse living style around the community as there are many variety ranging from Booking, Finance, Online Pharmacy Shop and many more. It

promotes the smart nation living lifestyle due to the convenience that our website provides for both the administrator and residents living in the community.
